

Sabzgaman Beski

Report to our donors and a new project Appeal

2025-2026

Gala November 2025

Message to Our Supporters

Dear Friends and Supporters,

Thank you for your generosity and continued support of Sabzgaman Beski. Because of your contributions, this year has been one of meaningful achievements and growth. Through our biennial charity gala (November 2025) and the generosity of our donors, we raised vital funds that are helping us improve lives, support environmental conservation projects, and promote education in health, wellbeing and environmental protection.

What Your Support Has Achieved

Our gala not only raised funds but also increased awareness of the charity's work and mission. The event generated around £30,000 in net funds after all expenses, providing important resources for our charitable activities.

During the year we provided grants and support to Royal Trinity Hospice, North London Hospice, St. John & Elizabeth Hospital, LifeLites, Growing Green and WildGen CIC.

The Beski Compassionate Care Project

The Trustees are pleased to announce the launch of the Beski Compassionate Care Project, a new initiative designed to advance one of the Charity's long-standing objectives: improving access to compassionate end-of-life care and sharing hospice knowledge and best practice where such services are not yet widely available.

Our investigations revealed that dedicated hospice facilities remain extremely rare in Iran. As a result, many families face the emotional, physical and financial burden of caring for terminally ill relatives at home, often without access to specialist support. While some families can arrange private care, such services remain beyond the reach of many others.

The Trustees believe that every person deserves dignity, comfort and compassionate support at the end of life, regardless of their circumstances. We are therefore exploring a partnership with an established health-related charity to develop a small model hospice that can demonstrate effective, compassionate and sustainable approaches to end-of-life care.

“Bringing dignity, comfort and compassionate care to those facing the end of life.”

Become a Founding Supporter

We invite individuals, families and businesses who share our vision to become Founding Supporters of the Beski Compassionate Care Project in Iran.

BRONZE FOUNDER – £2,500+

SILVER FOUNDER – £10,000+

GOLD FOUNDER – £20,000 and above

Founding Supporters will help create a lasting legacy of care, dignity and compassion for patients and families facing life's most difficult journey. The name of the founding members during the current financial year (which ends on 31st March 2027) will appear in the founding stone of the first hospice to be built in Iran.

How You Can Help

- Make a Founding Donation
- Introduce Potential Supporters

- Sponsor a Fundraising Event
- Share the Project with Friends, Family and Businesses
- Leave a Legacy Gift

Together, we can help ensure that compassionate end-of-life care becomes available to more people and families in need.

With gratitude,

Shohreh Beski
